

HTML Task 1

Attempt to write the HTML markup of a single web page whose design is provided.

Include the following elements in your code:

- Header
- Main
- Footer
- Section
- Nav
- List

Notes:

- Use as many semantic tags as possible.
- This assignment is limited to **HTML**
- However, you're encouraged to add some **CSS**
- Feel free to add some more elements to make the page complete
